Dear Mr President:

I am concerned about demographics. Immigration is a great boon to our country. The census bureau yesterday put out a report finding that our population is rapidly becoming largely elderly and children so that without significant immigration there will be too few people of working age for the next twenty years. This is already creating areas with more jobs than workers. Some sectors, farm work in particular, already rely largely on immigrants and are having trouble getting crops picked. In the past few months there has been a drop in immigration. This is likely due to several factors, but a rise in anti-immigrant attitudes is surely among them.

Please assure me that you will welcome immigrants to our shores.

I am very proud to be a US resident and a large part of that derives from our immigrant history.

Sincerely,
Eric Babson
