Dear Mr President:

I am concerned by attempts to reduce health care. The bill currently in House committee has been introduced with too short a time line, no budget office report, immediate opposition from such groups as the AMA, AARP and AHA and the clear intent of significantly reducing health insurance coverage in this country. This will substantially impact people's health and thereby weaken the country.

Please assure me that you will work to improve the health of Americans.

I am very proud to be a US resident and a large part of that derives from our high standard of health care.

Sincerely,
Eric Babson
