Dear Mr President:

I am concerned about kleptocracy. Both the administration and congress appear intent on cutting services to most of the country while greatly enriching a select few. Departments are being eviscerated with a hiring freeze, huge proposed cuts and arbitrary, morale crushing administrative moves while department secretaries such as Price, Pruitt and Mnuchen are under House investigation for billing private flights, and Pruitt and your own family continue to make news for remarkable personal security expenses. Your regulatory decisions also appear to be benefiting a few large companies at the expense of everyone else. Legislatively you have been backing bills to cut health care for tens of millions to enrich only a few thousand and your new tax proposal, while very light on detail, appears to have similar priorities.

Please assure me that you will use public funds for the public.

I am very proud to be a US citizen and a large part of that derives from our government for the people.

Sincerely,
Eric Babson
