Dear Mr President:

I am very concerned about corruption. Your administration features a remarkable list of corrupt and incompetent appointees but even there EPA Administrator Pruitt stands out. He began poorly with a record of denying science and suing the EPA suggesting a likelihood of dismantling the system that has brought us longer more comfortable lives through cleaner air and water. This he has done, but secretly as he also faces lawsuits over hiding his communications and contacts. His attitude of personal entitlement has produced a list of thefts from his agency for both himself and friends while retaliating against any who questioned these appropriations. Besides ruining our environment the example this man sets will encourage dishonesty throughout our society.

Please assure me that you will fire and prosecute Administrator Pruitt.

I am very proud to be a US resident and a large part of that derives from our government by and for the people.

Sincerely,
Eric Babson
