Dear Mr President,

I am concerned for our souls. You are now guilty both of treason in colluding with a foreign power to destroy the US government and human rights violations in your unconscionable treatment of immigrants- particularly children. If a majority who are either moral or patriotic are ever elected to congress you will face severe penalties. While how you manage to live with your your actions is beyond my understanding it is also not my business but the rest of the country is now implicated in your monstrosities. The country and the world will clearly be left much worse off when you leave office but it remains in your power to at least make an effort. Maybe your judges will then show more mercy than you have.

Please assure me that you will act morally.

I am very proud to be a US resident and a large part of that derives from our honest government.

Sincerely,
Eric Babson
