Dear Mr President:

I am concerned about foreign policy. Ukraine epitomizes the failures of the past two years. With the daily briefings shunted, Secretary Tillerson's evisceration of the state department and advisor Bolton's sidelining of the Security Council you are left flying foreign policy blind with only your avarice as a guide. There is your debt to President Putin biasing the US against Ukraine reminiscent of your Saudi debt and the resulting policy failures around Iran. There is the move to force Ukrainian attacks on your domestic opponent Vice President Biden reminiscent of your move to have Congressional leaders barred from the West Bank. There is the cover up with Acting Director Maguire blocking a report from the House reminiscent of the cover up of your obstruction of Council Mueller. These acts of treason debase your office.

Please assure me that you will resign.

I am very proud to be a US resident and a large part of that derives from our honest government.

Sincerely,
Eric Babson
