Dear Mr President:

I am concerned about pandemic. You have spent three years terrorizing immigrants from the attempts to cancel DACA and shift of ICE priorities to deporting everyone to pressuring of immigration judges, Kafkaesque denials of green cards because no age is filled in for a nonexistent child and overly broad interpretation of the public charge clause. These actions drive people to avoid police, courts and medical care making our communities weaker and more dangerous and increasing the spread of covid-19. All ICE activity needs to be immediately halted and a commitment made that seeking care for caronavirus will not contribute to any deportation. Your bully pulpit needs to be used to widely publicize these changes rather than blame China for your failings.

Please assure me that you will immediately disband ICE.

I am very proud to be a US resident and a large part of that derives from our humanity.

Sincerely,
Eric Babson
