Dear Mr Vice President:

I am concerned about mass murder. The dismantling of the CDC epidemic response system may be responsible for humanity's failure to contain COVID. Your complete failure to produce a national response as head of the COVID Task Force has caused hundreds of thousands of deaths, including many Americans. It appears testing was variously reassigned to Adm. Giroir and Mr Kushner with his shadow task force which is now reported to have scuttled their plan in an effort to kill more Democrats than Republicans. Such criminal behavior will no doubt be prosecuted and your level of complicity is tied to how long it takes your task force to roll out an alternative.

Please assure me that you will organize COVID testing.

I am very proud to be a US resident and a large part of that derives from our government for the people.

Sincerely,
Eric Babson
