Dear Mr President:

I am concerned about repression.

Minority groups with many recent immigrants are being targeted for arbitrary arrest. You campaigned promising massive human rights violations to deport millions. Already ICE was given arrest quotas cited by Mr Homan in removing two officials yesterday. At the same time a DHS memo allowed the arrest of a million legally present people who used either the CPB app for an appointment or one of four humanitarian programs. Once arrested many are rapidly removed or held without access to counsel. Far from aiding police by looking for people with outstanding warrants this encourages ICE agents to just knock at these addresses on file and grab anyone they find.

Please assure me that you will rein in ICE.

My pride in the US derives in part from the rule of law.

Sincerely,
Eric Babson
