Dear Mr President:

I am concerned about the FBI.

Over the past few months the agency has lurched into a political enforcement. Many agents at all levels have been fired with little explanation or warning after having been assigned to one of the investigations into your numerous federal crimes. This week two who resisted turning over lists of those so assigned were removed. As leaders who respect the law are lost Director Patel announced that the agency would shift to political persecution and pursue Texas state legislators for opposing your antidemocratic redistricting moves. To the Senate Mr Patel swore There will be no politicization at the FBI ... should I be confirmed

*Please assure me that you will remove FBI Director Patel.*

My pride in the US derives in part from our political freedom.

Sincerely,  
Eric Babson
