

Dr. D. A. Kouba  
office : 484 Kerr  
office phone : 752-1083  
e-mail: kouba@math.ucdavis.edu

Office hours : 10 - 11 T, Th, or by appointment.

The Calculus Room : Teaching Assistants are available to answer questions and explain course material to you 11 am – 6 pm Monday through Friday in 271 Kerr.

Math 16C (section 1) 3 credits,  
8 – 8:50 M W F in 2205 Haring

Math 16C homepage : <http://math.ucdavis.edu/~kouba/Math16C.html>

Course grade based on the following :

Exam 1 (Monday, October 17, 2005)	100 pts.
Exam 2 (Wednesday, November 9, 2005)	100 pts.
Exam 3 (Friday, December 2, 2005)	100 pts.
Final Exam	
(Monday, December 12, 2005, 10:30 am-12:30 p.m.)	200 pts.
Homework (See below)	0 pts.
<hr/>	<hr/>
Total points	500 pts.

***Homework assignments and solutions for the entire quarter, worksheets, practice exams and solutions, and a list of basic mathematics formulas can be printed from the Math 16C homepage.*** Homework will be assigned daily, but will not be collected.

*It will be your responsibility to do homework regularly and ask for help when you need it.*

No make-up exams are given. A missed exam is zero points.

Supplementary on-line calculus resources can be found at: <http://www.calculus.org>

Additional pre-calculus and calculus workshops and tutoring are offered by the Learning Skills Center (LSC) in Dutton Hall.

These Are My Suggestions For You  
As  
Calculus Students In Math 16C

1. Develop an effective and time-efficient homework/study strategy for this class and others.
2. Find at least one or two other students from this class with whom you can regularly do homework and prepare for exams.
3. Expect to spend up to two to four hours per homework assignment.
4. Begin preparing/outlining/organizing for exams at least five class days before each exam. Use unassigned homework problems, review exercises from the book, and practice exams as sources of new problems.
5. Expect the exams to be challenging.
6. Use all resources available to you, including homework solutions, lecture notes, your classmates, the Calculus Room, my office hours, etc.
7. MATH 16C RELIES HEAVILY ON THE MATERIAL FROM MATH 16A AND MATH 16B. THIS COURSE MOVES ALONG AT A RAPID RATE. IT WILL BE YOUR RESPONSIBILITY TO REVIEW AND RE-LEARN AND FIND ASSISTANCE FOR THOSE ITEMS OR CONCEPTS FROM MATH 16A AND MATH 16B WHICH YOU MAY HAVE FORGOTTEN.
8. Work hard on all of your classes, but take time to socialize, exercise, or relax from time to time. You need to eat and sleep too.
