

## Math 22B, Section 2, CRN 39647, Spring 2011

### COURSE HOMEPAGE

**Instructor:** Distinguished Professor CRAIG A. TRACY  
Office location: 3146 Mathematical Sciences Building (MSB)  
Email; Office Hours (OH): 11:00–11:50 AM, MW

**TAs:**

	STEPHEN NG	MARK LYDON	CHUAN QIN
Email:	<a href="#">Click here</a>	<a href="#">Click here</a>	<a href="#">Click here</a>
Office:	3131 MSB	3204 MSB	3204 MSB
OH:	Th: 1:00–3:00 PM	Wed: 11:00 AM–12 noon & Wed: 1:00–2:00 PM	M: 10:30–11:30 AM & M: 12:30–1:30 PM

**Textbook:** Lectures on Differential Equations by Craig A. Tracy

**Assignments:** Homework and Reading

**Examinations:** Midterm, Friday, April 29. Bring a new Blue Book.  
Final, Thursday, June 9 at 10:30 AM. Bring a new Blue Book.

**Course Grade:** Homework, 10%  
Midterm, 30%  
Final, 60%

**Remarks:**

- If you miss the midterm and have a medical excuse, there will be no makeup exam. The course grade will be determined by 20% homework and 80% final.
- It will help you if you read the assignments *before* each lecture. You will get more out of the lectures this way; and furthermore, you will know what is already written in the lecture notes and can spend more time *understanding* the material and less time simply taking notes.
- The homework is a *very* important part in your mastering the material in the course. There are not many problems in each assignment, but each problem is more involved than those from the calculus series. Part of your learning experience is to work on more difficult problems. The homework is not weighted heavily since you are just learning the material.
- On the course homepage there are midterm and final exams from previous years. They are *not* practice exams and solutions to these old exams will not be distributed. However, if you have questions about any of the problems you should discuss these with either the TAs or Professor Tracy.
