Math 127C - Real analysis | Summer I 2019

Lecture: 10 - 11:40 am, MTW 1 Wellman | Discussion: 10-11:40 am, R 119 Wellman
Instructor: Alvin Moon | E-mail: asmoon@math.ucdavis.edu | Office hours: TBD
Course Site: math.ucdavis.edu/~asmoon/su127C

Prerequisites: MAT 127B
CRN: 53873

The lecture and homework will refer to the Moskowitz-Paliogiannis textbook. Please let me know if you have difficulty acquiring the textbook.

Additional resources: You may be interested in the following textbooks which are not required but contain a different perspective of similar material:

Homework: Homework will be assigned once a week on Tuesday and will be due on Tuesday and Thursday, either in class, in the homework box or by email, by 5pm. No late homework will be accepted. The lowest homework grade will be dropped. See the course website for the current schedule of homework.

Discussion: I will reserve ~30 minutes at the end of Thursday meetings to discuss homework problems and lecture materials.

Exams: There will be one in-class midterm and one in-class final exam. **There will be no make-up exams.**

Grades: The course grade will be based on:

- Homework (10%)
- Midterm exam (40%)
- Final exam (50%)

SDC: Please contact the Student Disability Center (SDC) as soon as possible for arrangements. Any arrangements for the class must first be requested by the SDC. If you have any questions, please contact the SDC at (530) 752-3184 or sdc@ucdavis.edu.

Academic Honesty: You are encouraged to collaborate on and discuss homework assignments with classmates, but submitted assignments must be entirely in your own words. Copying another student’s homework or an online resource is unacceptable.

Any use of electronic devices (e.g. cellphones or tablets) or notes will be strictly prohibited during exams.
