Dear Mr President:

I am concerned about regulations. Many federal regulations contribute to the smooth and equitable functioning of our society. Apparently arbitrary failure to implement regulations through an executive order requiring numerical reduction and extremely fast track legislative review will leave a poorly organized jumble and weaken this country.

Please assure me that you will run the administrative branch of government thoughtfully.

I am very proud to be a US resident and a large part of that derives from the relative efficiency of our society.

Sincerely,
Eric Babson
