Dear Mr President:

I am concerned by the apparent influence of Mr Bannon in your administration. His position has avoided all congressional scrutiny and yet he seems to be deeply involved in several executive orders, hold a principles position in the NSC and possibly to be in a position to fill the void left by General Flynn. What is known of his views is chilling and their implementation will increase divisions and greatly weaken this country.

Please assure me that material security decisions will be taken by more thoroughly vetted people.

I am very proud to be a US resident and a large part of that derives from being informed about and able to challenge those making decisions.

Sincerely,
Eric Babson
