Dear Mr President:

I am concerned to hear that needed infrastructure projects are being canceled. In the Francisco bay area the electrification of our train line is now indefinitely on hold due to a last minute federal block of funds. This is the kind of project that creates jobs, improves connections between communities and reduces congestion.

Please assure me that you will work toward your campaign promise of increasing construction projects.

I am very proud to be a US resident and a large part of that derives from our extensive and efficient infrastructure.

Sincerely,
Eric Babson
