Dear Mr President:

I am concerned by the slowing of our economy that will result from our demographics. For our economy to see continued growth many people will need to be working. Much of the population is aging out. Another large segment of immigrants is being denied the government support of proper documentation to enable them to work efficiently. There is now the threat to expel many of our most productive future workers and to discourage many others from moving here. This will greatly weaken our economy.

Please assure me that you will act to bolster our work force.

I am very proud to be a US resident and a large part of that derives from our strong economy.

Sincerely,
Eric Babson
