Dear Mr President:

I am concerned by the move toward school vouchers. Our system of public schools helps with social mobility. This is the American dream and also creates a stronger economy through merit rather than inheritance. Our schools feed the world's greatest university system. Vouchers will starve the public schools of needed funding.

*Please assure me that you will work to improve education.*

I am very proud to be a US resident and a large part of that derives from our strong universal education.

Sincerely,  
Eric Babson
