Dear Mr President:

I am very concerned by the haste with the health care bill is being drafted. Major legislation should be created carefully. It will affect tens and likely hundreds of millions of people dramatically. Debate and committee work should await the CBO report. Legislators should have time to read and comment on aspects of the new regulations. Amendments by groups besides the leadership team should be considered. This unseemly rush gives the impression that there is much to hide.

*Please assure me that you will work toward an effective deliberative process.*

I am very proud to be a US resident and a large part of that derives from our government by the people.

Sincerely,  
Eric Babson
