Dear Mr President:

I am concerned by your continued support for the House health care bill. The CBO report as well as internal White House analysis make it very clear that this will make millions of people sicker. Tens of millions will lose insurance and many more will see higher deductibles. This will force people to choose between seeing doctors and paying rent. The effect on society will be more fear, less job mobility, more outbreaks of disease and shorter lives.

Please assure me that you will only support bills which strengthen the country.

I am very proud to be a US resident and a large part of that derives from our strong health care system.

Sincerely,
Eric Babson
