Dear Mr President:

I am very concerned by crime enabled by ICE raids. The terror being sown in immigrant communities by your policies for ICE raids has already started to reduce crime reports. The LA police have seen this in their domestic violence statistics. There are reports of abusers and gang members using the threat of ICE raids to silence victims and of employees threatening undocumented employers and vice versa. The fear results from the arbitrary power of individual agents and is increasing crime, decreasing employment and weakening our country.

Please assure me that you will provide restrictive guidelines for immigration agents.

I am very proud to be a US resident and a large part of that derives from the uniform rule of law.

Sincerely,
Eric Babson
