Dear Mr President:

I am very concerned by your tax suggestion. You, your family and the rest of your administration have many tax related conflicts of interest. The fact that you will not release you taxes, your son in law will not release his business associates and many others in your administration have unknown financial entanglements leads to suspicion that personal rather than national interest is driving policy proposals. Your proposal to eliminate the alternative minimum for instance appears to be designed to greatly reduce the contributions of large real estate developers such as yourself.

*Please assure me that you will make public the financial interests of your advisers and yourself.*

I am very proud to be a US resident and a large part of that derives from our minimal corruption.

Sincerely,  
Eric Babson
