Dear Mr President:

I am very concerned by your betrayal of the American people. As you know, the House health care bill you have been exulting over will have extremely damaging effects on the country. Among these: most premiums will rise, coverage will be reduced and deductibles increased, many people with health issues (preexisting conditions) will be unable to get insurance, the health sector of the economy will contract and thousands will die. The only advantage appears to be that you will save money. This is a complete reversal of many of your campaign promises.

Please assure me that you will reverse yourself and take a moral position on health care.

I am very proud to be a US resident and a large part of that derives from our egalitarian society.

Sincerely,
Eric Babson
