Dear Mr President:

I am very concerned over health care. This country has some of the worlds best doctors and hospitals. Health care constitutes a sixth of the economy and is growing. Access to care has long been a problem. In your campaign for President you promised health care for all, lower deductibles, better coverage. The house passed a bill which will leave tens of millions more people without coverage, increase deductibles for many others and reduce the quality of coverage for still more. This is clearly not what you promised, yet you strongly supported it... before you called it mean. Now a largely equivalent bill is about to see a vote in the Senate. Once again this is exactly opposite what you campaigned on and precisely what you criticized last week. Once again you are supporting it.

Please assure me that you will honor your campaign promises and veto the health care bill.

I am very proud to be a US resident and a large part of that derives from our government for the people.

Sincerely,
Eric Babson
