Dear Mr President:

I am pleased to see you continuing to support dreamers. There is significant pressure from state Attorneys General as well as the federal one to eliminate this program. The US immigration system is an incoherent mess with vague congressional guidance leaving much to the administration. DACA is one such example and appears to be entirely at your discretion. This is a court fight you would win. The program is also a great boon to our society. The people it directly affects have grown up as members of our society and trusted the government in registering for this program. Removing them would be indescribably cruel. It would also hurt everyone else in the society, with those of us left behind losing friends, students and future employers. Demographically, young, educated people are badly needed to maintain economic growth with many companies unable to find workers as our babyboomers retire.

Please assure me that you will defend you position on Dreamers.

I am very proud to be a US resident and a large part of that derives from our American Dream.

Sincerely,
Eric Babson
