Dear Ms Lee:

I am concerned about the direction of America in this budget season. Our international influence is being sabotaged and our coffers drained into the hands of the upper class. More importantly we are abandoning our sick and terrorizing people with deportation threats, DACA being a particularly cruel bait and switch. It seems that the Congressional Democrats can mostly protest and bear witness but the budget provides an opening. Shutting government for a time is a small price to pay for our souls.

Please assure me that you will insist on extending DACA before supporting any budget bill.

I am very proud to be a US citizen and a large part of that derives from our welcoming society.

Sincerely,
Eric Babson
