Dear Ms Lee:

I am concerned about privacy. Yesterday FISA reauthorization was backed by the House. A few weeks ago the then acting secretary of DHS asserted authority to forward DACA information to ICE to aid deportation. As the revelations of Snowden highlighted my government is collecting, transferring and abusing all the information it can find. This has become a great concern as the growth of electronic communication has left intimate details of people's lives open to any entity willing to put enough resources into hacking it. Whether information is gathered by our spy agencies or like DACA simply by lying about the governments ultimate intent there needs to be thoughtful statutory regulation with judicial oversight.

*Thank you for your voice and vote against this reauthorization.*

I am very proud to be a US citizen and a large part of that derives from our three branch system of government.

Sincerely,  
Eric Babson
