Dear Mr President:

I am concerned about ICE. Our immigration enforcement system is continuing its long decline into an extrajudicial deportation force. There is no judicial oversight or habeas corpus right with some people held indefinitely and others immediately deported to places they do not know. You have changed the priorities so that many upstanding members of our society are being targeted with families torn apart and communities becoming more fearful. These actions do not reflect the needs or wants of the communities that ICE is targeting. Both my state and my city have made their displeasure clear with sanctuary policies trying to wash their hands of your vicious actions.

Please remove ICE from California as you have promised.

I am very proud to be a US citizen and a large part of that derives from our government for the people.

Sincerely,
Eric Babson
