Dear Senator Feinstein,

I am very concerned about ICE. The ERO division has grown over the past 16 years into an extrajudicial police force answering to the whims of the president with very weak judicial oversight. They are flouting the constitution with restricted habeas protections, very little access to council and threats even due process all while breaking profiling laws and so embarrassing the Investigations division to prompt a move to separate. In attacking our immigrant communities - the very people with the most initiative who are driving our economy, driving down crime and fixing our demographics - a generation is being lost to fighting legal battles for themselves and their families or simply abandoning the US altogether. At the same time the worst among us are seeing licence to attack people with Kinner murdering toddlers yesterday. ICE's arbitrary deportation, indefinite detention and punitive attacks on children are stunningly immoral.

Please assure me that you will abolish ICE.

I am very proud to be a US resident and a large part of that derives from our government of laws.

Sincerely,
Eric Babson
