Dear Mr Vice President:

I am concerned that the trail of corrupt business practices by the President are corrupting our country. His eponymous ostensibly charitable foundation has never been subtle about its fraudulence but finally this particular vehicle for the family's criminality is shutting down as the indictments against it move toward court. This week also brought to light some of the fraudulent use of All County to launder money and cheat tenants and launch the President into business along with the sentencing of his co-conspirator Mr Cohen as well as two Senate Intelligence Committee reports on the collusion with Russia containing enough detail about the demographics being targeted to make the chance of derailing Secretary Clinton's election virtually nil without their help. While corrupt businessmen are generally unpleasant and best kept behind bars my concern is for the country. You serve (Unlike the rest of the administration) at the pleasure of the electoral college rather than the President.

*Please assure me that you will urge the President to resign.*

I am very proud to be a US resident and a large part of that derives from our honest government.

Sincerely,  
Eric Babson
