Dear Mr President:

I am concerned about the Justice Department. Today the world saw a redacted version of the Mueller report which details some of the extensive collusion involved in the theft of our presidency and numerous attempts to cover them up. Throughout this process General Barr has given every impression of acting as your lawyer rather than that of the nation. His fawning summary and unusual commentary today together with a history of missummarizing reports and advocating remarkably broad deference to presidential whim leave a strong impression that his redaction is in fact hiding something with President Nixon's 18.5 minutes coming directly to mind. In his short tenure General Barr has also managed to show his lack of independence with a willingness to sign on to your illegal and immoral vendetta against asylum seekers with a ruling allowing indefinite detention. The man is not fit for office.

Please assure me that you will fire General Barr.

I am very proud to be a US resident and a large part of that derives from the rule of law.

Sincerely,
Eric Babson
