Dear Mr Vice President:

I am concerned about our constitution. Our government was set up to avoid the need for revolution by establishing a mechanism for the removal of criminal leaders. As was clear from well before his election, our president is a criminal with a long record of tax and bank fraud and more recent campaign violations and collusion to steal an election. Once elected this pattern continued with a wide range of graft and obstruction of justice. The last possible excuse to delay the obvious move to impeach is now gone with the special counsel's report filed and largely available. In fact this report even lays out a very reasonable blueprint for such articles. You are the only other elected official in the administration making your stance particularly important.

Please assure me that you will endorse impeachment of the President.

I am very proud to be a US resident and a large part of that derives from our government of laws.

Sincerely,
Eric Babson
