Dear Mr President:

I am concerned about deportation. The US is a nation of immigrants who are on average more entrepreneurial, more law abiding, more working age and more interesting than the US born. Demonizing them has been among your most destructive blows against this country. Around DACA the House has now stepped up to your vicious challenge with a bill to normalize dreamers' status. Your attacks on even younger children are again mounting with comments supporting your horrific past separations and a long strategy to expel whole families, traumatizing children for a lifetime and terrorizing communities around the country. This extensive plan involved increasing arrests, fast-tracking removal orders, purging any officials with a shred of decency and now pushing plans through Acting Director Morgan to banish whole families from the interior of the country.

Please assure me that you will back the House DACA bill and fire Acting Director Morgan.

I am very proud to be a US resident and a large part of that derives from our welcoming society.

Sincerely,
Eric Babson
