Dear Mr President:

I am concerned about Puerto Rico. You were hired to administer the laws but are apparently unwilling or unable and focus instead on helping either yourself or other wealthy white people. This has been particularly damaging to Puerto Rico. After hurricane Maria you treated the response as just another graft opportunity resulting in a slow initial response and many months of delay even restoring power much less rebuilding infrastructure. You thereby killed many people and kept the economy in ruins. You have now clarified that this devastation was intentional by blocking emergency funds nationally simply to prevent any going to Puerto Rico and are now unconstitutionally failing to execute the law you did eventually sign. It is time to do your job or resign.

*Please assure me that you will release emergency SNAP funds immediately.*

I am very proud to be a US resident and a large part of that derives from our rational government.

Sincerely,  
Eric Babson
