Dear Mr President:

I am concerned about treason. You are again abroad and subverting the interests of the country. For most of a century Japan has remained demilitarized. By questioning this agreement as you have with NATO the world move closer to war. The liberal order and US elections were further eroded with your fawning on Mr Putin reminding us that you have lost or hidden the notes from your previous meeting and as President Carter mentioned that you colluded to steal the last election. Also this week your son-in-law whose suspicious and long delayed security clearance you are refusing to document has been implicated in negotiating with various foreign governments without so much as telling the State Department about the meetings much less whether the topics were the sale of government favors.

Please assure me that you will resign.

I am very proud to be a US resident and a large part of that derives from our honest government.

Sincerely,
Eric Babson
