Dear Mr Vice President:

I am concerned about treason - to which you are an accomplice. Bribing foreign governments to smear political opponents is obviously treason and staying out of town as you have the past few weeks does not keep your complicity in the antics around Ukraine out of mind. Testimony this week had your aide Ms Williams briefing you on this scheme and Ambassador Sondland discussing it with you in person. Your response has been silence with an implausible blanket denial from your press secretary. Notably absent is any transcript of you calls or meetings with President Zelensky but you must realize that these may eventually come to light. Your main comment so far has been that there was nothing wrong with the call between our Presidents. This is either a lie or a failure to understand that treason is wrong. Hence this letter.

Please assure me that you will resign.

I am very proud to be a US resident and a large part of that derives from our accountable government.

Sincerely,
Eric Babson
