Dear Mr President:

I am concerned about moral collapse. Your administration has infested our government with evil. It is only because of whistleblowers in several agencies braving systematic retaliation and documents not released to but uncovered by news agencies that we have even a hint of the depths to which your administration has sunk. The greatest horror uncovered is in your treatment of immigrants where congressional tours revealed concentration camp like conditions and an ICE whistleblower reported systematically poor care and oversight leading to a number of deaths which DHS, IHSC, CPB and ICE all either stonewalled or covered up. People who have so dehumanized others and debased themselves are capable of any atrocity.

Please assure me that you will immediately end administrative detention.

I am very proud to be a US resident and a large part of that derives from our human rights.

Sincerely,
Eric Babson
