Dear Mr. Attorney General:

I am concerned about health care. The US has among the world's best doctors and hospitals but profiteering and haphazard access make them less effective than in other wealthy countries with easily the highest prices (eight thousand dollars more than anywhere else) and lower and declining life expectancy. The Affordable Care Act has helped greatly but Republicans continue their vicious and inexplicable attempts to make our society sicker by repealing it. The recent fifth circuit ruling by Republican judges Englehardt and Elrod with encouragement from the Justice Department and President puts the question back in the reactionary judge O'Connor's court and leaves people unable to count on future health care.

Thank you for immediately filing suit to clarify this ruling nationally.

I am very proud to be a California resident and a large part of that derives from our sensible progressive policies.

Sincerely,
Eric Babson
