Dear Mr President:

I am concerned about justice. Your diatribes against Justice Department officials and decisions can not be plausibly waved off as jokes, hyperbole or harmless idiosyncrasies being ignored by the department. You continue to use your campaign line calling for the arrest of Ms Clinton and have now gone one better getting Ukraine involved with Mr Biden. Shortly after the election you began railing against judges and investigators looking into your crimes and while investigation continued jobs and pensions were lost and testimony scuttled. Your pardons, while bizarrely inappropriate, have not been for crimes you were involved in but this week you moved to directly hinder the case against Mr Stone for crimes in which you are involved. This subversion of our justice system brought an immediate response from department lawyers with four dropping any association with the now tainted case and one resigning. I hope Judge Jackson will call out this abuse.

*Please assure me that you will resign and face justice.*

I am very proud to be a US resident and a large part of that derives from the rule of law.

Sincerely,  
Eric Babson
