Dear Mr President:

I am concerned about our economy. The effects of this collapse are difficult to predict and the initial impulses of some Republican Senators are abhorrent. There is the profiteering of Senator Burr (who should be arrested immediately). There is the bill unveiled by Senator McConnell clearly designed like the ineffective tax give away to hand cash via buybacks to the boards of large corporations rather than address the unraveling of small businesses and losses for gig workers. Such a massive and complex task requires an expert such as Ms Yellen or Senator Warren at the helm to avoid the slapdash fumbling seen with the tax bill.

Please assure me that you will help to save the economy and defer to expertise.

I am very proud to be a US resident and a large part of that derives from our vibrant economy.

Sincerely,
Eric Babson
