Dear Mr President:

I am concerned about bullying. You continue to find new ways to destroy children's lives. In 2017 you decided to kidnap thousands of children crossing the border, warehouse them in poorly prepared facilities and dangle their recovery to lure people into deportation. Now that your incompetence is not just an amusement and drag on the moral fiber of the country but has turned a controllable disease into a society crushing epidemic you have returned to terrorizing children. Your latest monstrosity involves DHS abusing a March 20 CDC order and illegally deporting hundreds children themselves rather than their caregivers. The process is as usual opaque, arbitrary and slapdash with everyone involved left in the dark and children suddenly spirited around the globe to uncertain dangers.

*Please assure me that you will not terrorize children.*

I am very proud to be a US resident and a large part of that derives from our moral standing.

Sincerely,  
Eric Babson
