Dear Mr President:

I am concerned about fall classes. Your COVID actions appear designed to kill as many people as possible. You have frequently downplayed the dangers, usurped the limelight from medical experts, delayed testing (maybe for profiteering by your son), moved to limit employer liability to force unsafe work and allotted medical equipment for political gain. Universities are now finalizing fall plans in the face of essentially no guidance and rapidly changing information from the sudden expansions of coronavirus around the country to the outbreaks at UW last week. Some are keeping classes virtual and others working out a mix with in person classes. Today ICE acted to upend these plans and force unsafe classes by threatening to deport foreign students whose classes remain virtual.

Please assure me that you will abolish ICE.

I am very proud to be a US resident and a large part of that derives from our international universities.

Sincerely,
Eric Babson
