Dear Mr President:

I am concerned for my mail. As a heavy user both for letters like this and the occasional ballot Mr DeJoy's leadership of the service is troubling. At least since Herodotus' description of the Persian mail system this connection has been integral to a coherently governed nation but ours is being dismantled at a pace suggesting a goal of mayhem by November 3 and irreparability by January 20. In another example of executive disdain for constitutional oversight Ms Wasserman Schultz from the House oversight committee was barred yesterday by armed guards from viewing some of the hardware you have had dismantled which reputedly now hosts boxes of weeks old undelivered mail.

Please assure me that you will fire Mr DeJoy.

I am very proud to be a US resident and a large part of that derives from our infrastructure.

Sincerely,
Eric Babson
