Dear Ms Lee:

I am concerned about justice. The President has worked hard to dismantle and distort our government from reorganizations by Secretary Tillerson and Director DeJoy, politicization of the science at the EPA and CDC to transformation of the Justice department into a personal law firm attacking his adversaries, giving a pass to his friends and now intervening in a case around his rape. The longest term effects though could be the incompetent bigoted ideologues he has hired to our courts. These include Justice Kavanaugh, Judge Rao, Judge Kobes, Judge Norris, Judge VanDyke and Judge Bush who were all sufficiently weak to make the news but I fear there are many other examples. The result is corrupt rulings such as Rao's to drop prosecution of Mr Flynn. The House should be preparing to review all recent appointments and impeach those found wanting.

*Please assure me that you will rescue our courts.*

I am very proud to be a US resident and a large part of that derives from the rule of law.

Sincerely,  
Eric Babson
