Dear Mr President:

I am concerned about mysogyny. Your attacks on women have been both rhetorical and physical: bragging on tape about assault and facing a credible charge of rape. You have terrorized immigrants with prison camps here and refugee camps on our border. The report yesterday of ICE abusing deportation powers to protect Dr Amin from serious malpractice charges by immigrant women is revolting. The charges by more than a dozen women include operations at the Irwin County Detention Center endangering their ability to have children without consent or medical necessity. Your government has responded not by investigating but by fast tracking the deportation of those leveling the charges. *Please assure me that you will block the deportation of witnesses against Dr Amin.*

I am very proud to be a US resident and a large part of that derives from our respect for human rights.

Sincerely,
Eric Babson
