Dear Mr Vice President:

I am concerned about derangement. The president has never been very rational or stable and this week's Facebook diatribe suggests he is deteriorating and his remaining 46 days in office could be quite destructive. The prospect of losing his audience, his leverage to bully people and possibly also his freedom will increase his desperation. There are frightening hints such as replacing the pentagon staff and keeping the Biden team out of military intelligence offices all while COVID is ignored as it devastates the country. Sadly you continue to remain silent about these attacks on our system. As the only other elected member of the administration and the principal player in the 4th and 6th clauses of the 25th amendment it is important that you be prepared to act.

*Please assure me that you have lined up the support to remove the President.*

*I am very proud to be a US resident and a large part of that derives from our constitution.*

*Sincerely,  
Eric Babson*
