Dear Senator Harris:

I am concerned about social disintegration. Since the 1970's the country has been becoming progressively more stratified. Federal failure has now brought an epidemic which has accelerated the process frighteningly. The obvious approach to keeping society together through this fiasco is represented by the CARES act and its House follow on. It is the height of irresponsibility to pass a military budget when millions are facing hunger and eviction, thousands of small businesses are shuttering and local governments are nearing bankrupt.

Please assure me that you will oppose any military budget before passing sufficient COVID relief.

I am very proud to be a US resident and a large part of that derives from our open society.

Sincerely,
Eric Babson
