Dear Senator Harris:

I am concerned about sabotage. The President has two more weeks of great power scheduled. He has no interest in the welfare of others and an extensive record of criminal activities some of which may be close to charges in NY, many of which are clearly high crimes and one of which threatened your own office along with those of his Republican apologists on Wednesday. Reports suggest administration complicity not only in inciting the attack but also in blocking the guard response. With very little to lose and the world's largest military at his disposal the next eleven days could be horrific.

Please assure me that you will impeach the President immediately.

I am very proud to be a US resident and a large part of that derives from our democracy.

Sincerely,
Eric Babson
