

VITAE

Jesús Antonio De Loera

PERSONAL INFORMATION

Birthdate: January 18, 1966

Married, two children

Citizenship: USA and México

Languages: Fluent in Spanish, French, and English. Solid knowledge of German.

Official Contact Information: Department of Mathematics,
University of California,
3228 Mathematical Sciences Building,
Davis CA 95616-8633
phone: (530) 554-9702
fax: (530) 752-6635
E-mail: deloera@math.ucdavis.edu
URL: <http://www.math.ucdavis.edu/~deloera>

EDUCATION

Ph.D. Cornell University, Applied Mathematics, April 1995.

M.S. Cornell University, Applied Mathematics (Operations Research), February 1993.

M.A. Western Michigan University, Mathematics, May 1990.

B.S. National University of Mexico, Mathematics, May 1989.
(Honors thesis: “On the genus of finite groups”)

Doctoral Dissertation

Title: “Triangulations of Polytopes and Computational Algebra.”

Advisor: Professor Bernd Sturmfels (UC Berkeley).

RESEARCH INTERESTS

Discrete Mathematics, Combinatorics

Convex and Discrete Geometry

Algebraic, Geometric and Topological methods in Combinatorics

Integer and Combinatorial Optimization

Algorithms and Computation in Algebra, Combinatorics & Geometry.

Mathematical Foundations of Operations Research and Data Analysis

Applications in Economics, Decision-Making, Operations Research, Social Sciences.

PROFESSIONAL EXPERIENCE

2014-to date: Professor and Faculty Assistant to the Dean of Math. and Physical Sciences for Undergraduate Affairs, UC Davis (equivalent to associate dean position).

2012-2014: Professor and Vice-Chair of Undergraduate Affairs for the Mathematics Department, UC Davis.

2005-to date: Professor of Mathematics and of the graduate groups in Computer Science and Applied Mathematics, University of California, Davis.

2002-2005: Associate Professor, Dept. of Mathematics, University of California, Davis.

1998-2001: Assistant Professor, Dept. of Mathematics, University of California, Davis.

1998-1999: Visiting Professor, Dept. of Computer Science, Swiss Federal Institute of Technology Zürich (ETH-Zürich).

1995-1998: Visiting Assistant Professor of Mathematics, University of Minnesota.

1991-1994: Teaching and Research assistant, Cornell University.

1987-1988: Teaching and Research assistant, National University of Mexico.

ACADEMIC HONORS

Awards, Fellowships, and Memberships:

- 2014 American Mathematical Society Fellow
- 2014 Bernard Society Lecturer, Davidson College
- 2013 Chancellor's award in undergraduate research mentoring.
- 2013 Kemeny Lecture award, Dartmouth College.
- 2012 John von Neumann professor, Technical University of Munich, Germany.
- 2011 Alumni Achievement Award from Western Michigan Univ.
- 2010 co-winner of the INFORMS computer society prize.
- 2007 UC Davis, Award for excellence in service to graduate students, UC Davis Graduate Student Association.
- 2006 UC Davis, Principles of community and Diversity Award.
- 2004 Alexander Von Humboldt Award.
- 2003-2008 UC Davis, Chancellor's fellow Award.
- 2001 Galois Group Award to individuals who serve the mathematics graduate program in a unique way.
- Postdoctoral fellowship at the Geometry Center of the University of Minnesota.
- National University of Mexico doctoral Fellowship (1989-1995).
- Institute of Mathematics of the National University of Mexico undergraduate Award and fellowship (1986-1988).

- Member of AMS, SIAM, MAA, INFORMS, and MOS.

Visiting Positions: Long-term visiting researcher at the following research institutions:

- Institute for Mathematics and its Applications, Univ. of Minnesota
- Newton Institute for Mathematical Sciences, Cambridge University, UK.
- Technische Universität München, Germany.
- Institute for Pure and Applied Mathematics, UCLA.
- Universität Magdeburg, Germany.
- Swiss Federal Institute ETH-Zürich, Switzerland.
- Mathematical Science Research Institute, Berkeley USA.
- Universidad de Cantabria, Spain.
- CINVESTAV-Instituto Politécnico Nacional, Mexico.

Teaching & Mentoring:

- Has taught a wide range of undergraduate and graduate classes at the following institutions: Universidad Nacional Autonoma de Mexico, Cornell University, University of Minnesota, ETH Zürich, University of California, Davis, Technische Universität München.
- **Ph.D students:**
 - Maya Ahmed (2004, now working in software industry in India),
 - Ruriko Yoshida (2004, now at U. Kentucky tenured),
 - Tyrrell McAllister (2006, now at U. Wyoming, tenure-track),
 - Susan Margulies (2008, now at US Naval Academy, tenure-track),
 - David Haws (2009, now at IBM Research science staff),
 - Edward D. Kim (2010, now at U. Wisconsin Lacrosse, tenure-track),
 - Mohamed Omar (2011, now at Harvey Mudd College, tenure-track)
 - Yvonne Kemper (2013, now at National Institute of Standards.)
 - Brandon Dutra (ongoing, advanced to candidacy 2014, Ph.D expected June 2016)
 - Reuben La Haye (ongoing, advanced to candidacy 2014, Ph.D expected June 2016)
 - Jacob Miller (ongoing, advanced to candidacy 2014, Ph.D expected June 2016)
 - Jamie Haddock (ongoing, passed prelims 2014, qual expected 2016)

- **Master Students**

Pritpal Singh 2002

Jerry De Groot 2002

Tom Brounstein 2012

Mark Junod 2013

Rebecca Starr 2014

- **Postdoctoral Fellows:**

Dr. Raymond Hemmecke (now at TU. Munich).

Dr. Ruchira Datta (now at UC Berkeley).

Dr. Matthias Köppe (now at UC Davis, full professor).

Dr. Fu Liu (now at UC Davis, associate professor)

Dr. Peter Malkin (now at Billington Inc. Australia)

Dr. Steve Klee (now at Seattle University, tenure-track)

Dr. Steffen Borgwardt (currently at UC Davis)

Dr. Elisabeth Finhold (currently at UC Davis)

- **Undergraduate students** Just at UC Davis I have had more than 45 undergraduates conduct research under his supervision (with 21 of them going to graduate school afterwards and 22 of them finish undergraduate honors thesis). At UC Davis alone he has supervised for more than 3 months the work of the following people (those that went to graduate school marked with schools names):

Amber Johnston, Cynthia Miranda* (CSU Long Beach), Marisa Garcia, Natasha Slepoy* (Columbia Univ), Jon Brooks, Jeremiah Tauzer* (Purdue U.), Peter Huggins* (UC Berkeley), David Haws* (UC Davis), Austin Shapiro* (Univ. Michigan), Michael Zhang, Esteban Pauli* (U. Illinois Urbana), Carol Hshi, David Karapetyan* (USC), Katherine Stalder* (Stanford), Creed Erickson* (UC Davis), Luis de la Torre* (Northwestern U), Tia Baker, Servando Narvaez * (UC Berkeley), Allison O'Hair* (MIT), Matthew Vicksell, Karla Lanzas* (San Francisco State), Rex Cheung* (UC Davis), Nancy Tafolla* (San Diego Univ.), Courtney Dostie, Katherine Burggraf, Brandon Dutra* (UC Davis), Timothy Ingram* (Stanford), Samantha Cappozo, Jianqiu Wu* (Rice U.), Stanislav Moreinis* (Stanford), Gregory Pinto, Ying Shi* (UC Berkeley), Longphi Nguyen* (UC Davis), Yuan Yuan Shen* (Stanford), Laila Rizvi, Connor Duthie, Victor Fuentes*(Univ. Michigan), Jacqueline Rodriguez* (UCLA), Hanna Polterock, Melody Molander (Univ. of Oklahoma), Trevor Chan, Emily Macway (UC Santa Barbara), and Brendon Verissimo, Samuel Asher, Corina Putinar, Miguel Gil, Alicia Figueroa, Megan Liska, Jianping Pan, Kevin Sumner, Benjamin Bairrington, Li Li, Sean O'Cleary, Morgan Imel.

SCHOLARLY SERVICE ACTIVITIES

Editorial and Referee Work:

- Associate Editor for
 - *Discrete Optimization* (until 2014)
 - *SIAM J. of Discrete Math.*
 - *SIAM J. for Applied Algebra and Geometry*, starting 2016.
- Co-editor special issue on “Geometric Combinatorics”, 148 pages, “Discrete and Computational Geometry” Volume 27, Number 1, 2002.
- Reviewer for Mathematical Reviews, Zentralblatt für Mathematik since 1995.
- Referee for the following institutions and conferences:

The National Science Foundation,	Journal of Combinatorial Theory (A,B),
Journal of the American Mathematical Soc.	Discrete Applied Mathematics,
Discrete and Computational Geometry,	Journal of Pure and Applied Algebra,
Operations Research,	Mathematical Programming (A,B),
American Mathematical Monthly,	Contributions to Discrete Mathematics,
Boletin de la Sociedad Matematica Mexicana,	Advances in Applied Mathematics,
Computational Geometry: Theory and Apps.,	Mathematic of Computation
Journal of Symbolic Computation,	Operations Research Letters,
Journal of Optimization Theory and Apps.	Proceedings of the AMS
Discrete Optimization,	Mathematika,
Journal of Algebraic Combinatorics,	Mathematics of Operations Research,
Advances in Mathematics	Beitrage zur Algebra und Geometrie
SIAM journal of Optimization	Forum of Mathematics
Symposium on Integer Programming and Combinatorial Optimization 1999,	
ACM-SIAM symposium in Computational Geometry 1999, 2000, 2001,	
Springer book series in “Algorithms and Computations in Mathematics”,	
Formal Power Series and Algebraic Combinatorics 2001.	

Conference Organization and Special Service Committees

- Elected to the Executive Council of the American Mathematical Society (2015-2019).
- Elected member of the American Mathematical Society Council (serving in subcommittee in Education) (2013-2016).
- co-organizer Casa Matematica Oaxaca, Advances in Discrete Optimization November 2015.

- Co-organizer Mathematical Research Communities program Snowbird Utah, June 2014.
- Member scientific program committee special program on *Inverse Moment Problems*, Institute for Mathematical Sciences (IMS) at the National University of Singapore, Singapore, (Nov. 2013-Jan 2014).
- Member scientific program committee “Mexican Conference on Discrete Mathematics and Computational Geometry” Oaxaca Mexico, November 2013.
- Co-organizer, special session on Convexity, Combinatorics and Topology at First Mathematical Congress of the Americas, Guanajuato August 2013
- Co-Chair of the Scientific Committee LAGOS VII, Playa del Carmen, Mexico, April 2013.
- Scientific program committee member IPCO XVI, Valparaiso Chile March 2013.
- Chair “Convexity, Topology, Combinatorics & Beyond, an international workshop”, Puerto Vallarta Mexico, October 2011.
- “Workshop on Optimization”, Fields Institute, Toronto Canada, September 2011. Program on Discrete Geometry and Applications
- “Conference on Discrete Geometry and Optimization”, Fields Institute, Toronto Canada, September 2011. Program on Discrete Geometry and Applications
- “Workshop on Discrete Geometry”, Fields Institute, Toronto Canada, September 2011. Program on Discrete Geometry and Applications
- Chair for Workshop “Efficiency of the Simplex Method: Quo vadis Hirsch conjecture?”, UC Los Angeles IPAM, January 2011.
- Scientific committee member LATIN 2010 (Latin American Theoretical Informatics), Oaxaca Mexico, April 2010.
- Organizing and Scientific committee MIP 2009 (Mixed Integer Programming), Berkeley, June 2009.
- Scientific committee member and co-organizer “Geometric Combinatorics” Satellite conference of the International Congress of Mathematicians, Alcalá de Henares, Spain, 2006.
- co-organizer “Algebraic Techniques for Optimization” SIAM conference on Discrete Mathematics, University of Victoria, British Columbia, 2006.
- Award committee, MAA Beckenbach book award, 2007-2009.
- co-organizer “Inside the Cube: Algebra, Combinatorics, and Geometry”, Magdeburg Germany, 2005.

- Scientific program committee member IPCO XI, Berlin Summer 2005.
- co-organizer Oberwolfach workshop on “Ehrhart Quasi-Polynomials”, Summer 2004.
- co-organizer AIM workshop on “Algebraic Statistics” Winter 2003.
- Co-Chair, MSRI-Berkeley special semester in “Discrete and Computational Geometry” Fall 2003. A semester long program that attracted several dozens of experts and included three workshops.
- Program committee member ACM-SIAM symposium on Computational Geometry Boston June 2001.
- Co-organizer AMS session of “Algebraic and Geometric Combinatorics” San Francisco 2000.
- Founding member “Bay Area Discrete Math Day”, a semi-annual regional meeting, (since 2000 main regional combinatorics meeting in Northern California).

RESEARCH ACTIVITIES

Grants & Research Funding:

- NSA grant (2015-2016).
- NSF-DMS personal grant (2000-to-2014, recommended for 2016-2019).
- CONACYT-UC MEXUS grant (2013-2015).
- Lead PI, NSF VIGRE grant 2007-2013 for the UC Davis math department (3.3 Million dollars).
- Co-PI of NSF VIGRE grant 2002-2007 for the department of Mathematics.
- IBM collaborative grant, *non-standard techniques in integer optimization* (2006-2010).
- Co-PI for GAAN grant (2000-to date).
- Four NSA grants to support scientific workshops.
- Three NSF grants for scientific workshops.
- CNRS-University of California, *Computer Algebra techniques in Optimization*, Berkeley Fund Award. (2001-2002). Co-PI András Sebő.
- Swiss Federal grant *Optimization in the space of subdivisions of a polyhedron* (1998-1999). Co-PI Jürgen Richter-Gebert.

Selected Invited Talks:

- *Plenary Speaker or Keynote Lecturer for large national or international events:*
 - Plenary speaker 2014 West Coast Optimization Meeting, September 2014, Surrey Canada
 - Plenary Speaker MAA southern California section annual meeting, October 2013
 - Plenary Speaker, “Polynomial Optimization”, Summer School at Newton Institute Cambridge UK, July 2013.
 - Plenary Speaker AMS Western Section Meeting Boulder Colorado, April 2013
 - Plenary Speaker Anderson Lecture at the Louisiana Mississippi MAA Section Conference, March, 2014
 - Plenary Speaker, MAA Halmos Distinguished Lecture Series, Carriage House Conference Center, Washington DC September 2012
 - Workshop speaker, “Mixed-Integer Programming 2013”, UC Davis, July 2012
 - Plenary Speaker Bay Area Discrete Math Day, March 2012
 - Plenary Speaker, Triangle Lectures in Combinatorics, Univ. of North Carolina, Chapel Hill, November 2011
 - Plenary Speaker Atul Vyas Memorial Lecture, Claremont Mckenna College, November 2011
 - Plenary Speaker XX Coloquio Vector Neumann-Lara de Teora de las Grficas, Combinatoria y sus Aplicaciones, Pachuca Mexico, February 2011
 - Plenary invited topical speaker SIAM Annual meeting, Pittsburgh, July 12-16, 2010.
 - Plenary Speaker, Second Canadian Discrete and Algorithmic Mathematics Conference (CanaDAM), Montreal, May 2009
 - Plenary speaker, Fourth International Symposium of Combinatorial Computing (4ICC), University of Auckland New Zealand, December 2008.
 - Keynote lecturer “Rocky Mountain Mathematics Consortium Summer School: Polyhedral Geometry and Algebraic Combinatorics”, Laramie Wyoming, June 20-July 1, 2011.
 - Keynote Lecturer, Summer Seminar of the North Central Section of the MAA, St. John’s University Minnesota, July 2009
 - Plenary speaker DIAMANT/EIDMA symposium Netherlands (2007)
 - Plenary speaker MAA Golden Section (CA,NV, HI), annual meeting March (2008), Sacramento, CA
 - Plenary Speaker MAA Mathfest, Knoxville Tennessee (2006)
 - Plenary Lecturer, IMA Tutorial on “Algebraic Geometric Methods in Engineering”, September 2006, IMA Minneapolis MN
 - Plenary Lecturer, Doctoral school on: “Optimization over Polynomials and Semidefinite Programming” University of Klagenfurt (Austria), September 2005.

- Plenary Lecturer, International Summer School on Geometric and Algebraic approaches for Integer Programming, University of Lisbon, Portugal, July 2005
- Plenary Speaker, XI Encuentros de Geometria Computacional Santander Spain, June 2005
- Plenary speaker, CBMS conference on *Integer points in Polyhedra: Geometry, Number Theory, Algebra, Optimization* Snowbird Utah (2003)
- Plenary speaker COCOA VIII (computational commutative algebra) Cadiz Spain (2003)
- Plenary speaker conference COMBINATEXAS (2001),
- *Invited Department-wide Colloquium Speaker*
 - Colloquium Univ, of California Los Angeles, Jan 2016
 - Colloquium Technical Univ. of Berlin, October 2015
 - Colloquium Instituto de Matemáticas UNAM, March 2015
 - Colloquium University of San Francisco, September 2014
 - Colloquium of Illinois Institute of Technology, October 2013
 - Colloquium of Technical University of Munich, June 2013
 - Colloquium Applied and Computational Mathematics, October 2012
 - Colloquium George Mason University, September 2012
 - Colloquium George Washington University DC, September 2012
 - Colloquium, Operations Research Center Colloquium, MIT, September 2008
 - Colloquium of Rice University Computational Applied Math Dept. April 2008.
 - Colloquium Speaker, Sonoma State Univ., April 2008
 - Colloquium speaker Dept. of Applied Mathematics, MIT (2006),
 - Colloquium speaker Technische Universität Berlin, December 2004),
 - Colloquium speaker Dept. of Mathematics Univ. of California Berkeley (2003),
 - Colloquium speaker Dept. of Mathematics, Santa Clara Univ, March (2003)
 - Colloquium speaker Dept of Mathematics, UC Santa Cruz, October (2003)
 - Colloquium speaker Dept. of Computer Science, Hong Kong University (2002),
 - Colloquium speaker Dept. of Operations Research and Industrial Engineering UC Berkeley (2000)
 - Colloquium speaker, Dept. of Mathematics, Purdue University Lafayette (1998)
 - Colloquium speaker, Courant Institute of Mathematical Sciences New York (1998)
- *Invited Workshop Speaker*
 - Workshop speaker Oberwolfach “Topological and Algebraic Combinatorics”, February 2015

- Workshop speaker IMA “Enumerative and Geometric Combinatorics”, November 2014.
 - Workshop speaker AMS Special Session on Polyhedral Number Theory, October 2014
 - Workshop speaker ”Recent Advances in Linear Optimization”, Paris, July 2014
 - Workshop speaker “SIAM optimization annual meeting, San Diego California May 2014
 - Workshop speaker “Optimization, Moment problems and geometry”, Singapore, November 2013
 - Workshop speaker Clifford Lectures, Tulane University, March 2010
 - Workshop speaker AIM workshop on “ Convex algebraic geometry, optimization and applications”
 - Workshop speaker AIM workshop on “Combinatorial challenges in toric varieties”, April 2009,
 - Invited speaker, workshop High Performance Optimization Techniques (HPOPT), Tilburg Netherlands, June 2008.
 - Workshop speaker, “Mixed-Integer Nonlinear Optimization: Algorithmic Advances and Applications”, IMA Minnesota, November (2008)
 - Workshop Speaker, “Polyhedral Computation”, October, 2006, Centre de Recherche Mathematique, Montreal Canada
 - Workshop speaker, “Convex Sets and their Applications”, International Research Station, Banff, Canada (2006)
 - Workshop speaker, “Algorithmic, Combinatorial and Applicable Real Algebraic Geometry”, MSRI Berkeley, April 2004
 - Workshops speaker, “Connections in Mathematics”, Society for the Advancement of Chicano and Native Americans in Science, October 2003
- *Invited seminars presented at the following universities and conference centers:*
Hausdorff Institute for Mathematics, Univ. of Bonn (2015) Instituto de Matemáticas Univ. de Sevilla (2014) Industrial and Systems Engineering, Georgia Tech (2014) Combinatorics seminar, Georgia Tech (2014) Combinatorics Seminar, Caltech (2012), National Institute of Standards and Technology (2012), Combinatorics Seminar MIT (2000), Combinatorics Seminar UC Berkeley (2000,2003, 2004,2008), Combinatorics Seminar Univ. of Washington (2010), Combinatorics Seminar, Univ of Illinois Urbana-Champaign (1998), Operations Research & Industrial Engineering UC Berkeley (2012), Algebra-Combinatorics Seminar San Francisco State Univ. (2003,2005,2006), Combinatorics seminar, Texas A & M Univ. (2007) IBM T.J Watson Research Center, NY (2007), School of Business, Operations Research Seminar, Univ. British Columbia, Canada, (2007) School of Computer Sciences McGill University Canada, CINVESTAV Mexico (1999), Univ. of Tokyo Japan (2005), Universidad Tecnica de Lisboa,

Portugal (2005) Universidad Complutense Spain (2000), University of Rome Italy (2005), University of Crete Greece (2005), CWI-Amsterdam, Netherlands (2004), Universität Osnabruck Germany(2005), Technische Universität Darmstadt (2005), Universität Marburg Germany (2005), Mathematisches Institut Oberwolfach Germany (1995,2000,2005,2007,2008,2010,2012) Freie Univ. Berlin Germany (2013), Technische Univ. Berlin Germany (2004), Univ. Magdeburg Germany (2004, 2005, 2013) ETH Zürich Switzerland (1999, 2005), Oxford University UK (1996), International Centre for Theoretical Physics Trieste Italy (1994),

SOFTWARE

The original *LattE* was first developed in 2001 as C++ software to study lattice points of convex polytopes, primarily counting them and computation of Ehrhart functions (see paper (23)). The algorithms used combinations of geometric and symbolic computation. The key data structures are rational generating functions and cone decompositions. It was the first ever implementation of Barvinok's algorithm. The latest *Latte Integrale 1.7.2* incorporates the ability to integrate a polynomial over a polytope.
