

## Important Information about MAT22A and MAT22AL

MATH 22AL is an on line computer lab for MATH 22AL. This course uses MATLAB to reinforce the concepts learned in MATH22A. All MAT 22A students are required to take 22AL, unless they have taken Eng 6 or have a good knowledge MATLAB and its use in Linear Algebra. If you are enrolled in Eng 6 this quarter, still you need to take MAT22AL.

This is not a course in programming with MATLAB, it is designed to use MATLAB to help your 22A course. You will be assigned some HW problems requiring MATLAB.

If you are enrolled ( or are in wait list) in MAT22AL please read and follow the directions on this handout carefully.

- Location of the LAB: 2118 MATHEMATICAL SCIENCES BUILDING  
Visit [http://www.cevs.ucdavis.edu/map/map\\_detail.cfm?assetInfo=83](http://www.cevs.ucdavis.edu/map/map_detail.cfm?assetInfo=83)  
for Campus Map.
- **Your UCD user-name and password will NOT work in our computers. Before going to the LAB, please obtain your user-name and password** ( see below) .
- Bring this handout, your laprop and your user-name and Password to the LAB.
- There is only one formal meeting of the LAB on **Tuesday 1/7/2020** or on **Thursday 1/9/2020**. Starting the second week you will do your work anytime by yourself, there is no formal meeting. If you need help or have questions, you may go to TA office hours. You may do the work at home, in 2118 MSB, or on your Laptop or any other computer lab on campus.
- If you are in waiting list, please act as you are enrolled, You will get in during the second week of the instruction, if dropped from the waitlist, please concat Dr. Daddel.
- Follow the following instructions, to obtain your User name and Password (You need to do this today or before attending your first LAB.) Even if you are in waitlist you can get user name and password :
  - Visit the Mathematics Department web site: <http://www.math.ucdavis.edu/comp/class-accts>
  - Then select your **MAT 22AL** section[ NOT 22A], type your LAST NAME and ST ID #, click "Add Account" wait for few seconds, Computer will give you a user-name and a password, print the page or make a note of them and bring them to the LAB.
  - If you like to change your password you may do it by visiting <http://www.math.ucdavis.edu/comp/password>

Here is CRN numbers for LABS if you need them:
